Product description

ONE RACK FOR ALL MOTORCYCLES

CONSTRUCTION

the AISI 304 / 1.4301 stainless steel construction ensures extraordinary durability and resistance to weather conditions, which makes our rack ready for any challenge

STRONG FASTENING ELEMENTS

snap hooks, shackles and turnbuckles made of AISI 304 / 1.4301 stainless steel guarantee safe fastening and stability during transport

LOAD CAPACITY

our rack can easily handle an impressive load capacity of up to 280 kg, which allows you to easily transport even the heaviest motorcycles

LOADING

Trivially simple and extremely fast loading and unloading time of the motorcycle - just 1 minute is enough and you can set off on your journey, without wasting unnecessary time.

Our rack ensures full stability of the transported motorcycle thanks to its unique construction, which immobilizes the front wheel and provides excellent fastening.

The innovative design allows you to quickly wash your trunk after returning from an off-road ride, eliminating the problem of mud and sand, which will never remain on your trunk again.

Load capacity: 280 kg

Net weight: 55 kg

MAIN BAR - Hitch Size, 2" (51mm) - US standard

Dimensions: 200 cm x 150 cm x 13 cm

Packaging dimensions: 150 cm x 30 cm x 30 cm
